## **About the Institution**

MES College of Engineering, the first engineering college established under the self-financing sector in Kerala is situated on the beautiful and serene banks of Nila. It was established as an institution with minority status in 1994. Widely acknowledged as one of the premier institutions imparting technical education in the state, the college offers admission to all categories of students with special consideration to educationally backward communities. At present there are eight under graduate programs including B. Arch and ten post graduate courses in M.Tech, MCA, MBA and M.Arch in the college. Nearly 3000 students study here under the guidance of over 240 qualified faculty members and research guides.

## **About The Department**

Department of Civil Engineering was started in MESCE in the year 2007 with an intake of 40 for UG (B.Tech) which was increased to 60 in 2009. It also admit students in the third semester as lateral entry students. The B Tech Civil program is NBA accredited in 2019 for the period of three years. In 2012, a Post Graduate (M.Tech) course in 'Construction Engineering and Management' was started, which has an intake of 18 students.

Consultancy works and laboratory tests are undertaken for private institutions as well as public departments like KPWD, CPWD, KWA, Indian Railway, Irrigation department, KSEB etc. The department conducts different skill development courses under Additional Skill Acquisition Programme (ASAP), Govt. of Kerala and Pradhan Manthri Kaushal Vikas Yojana (PMKVY) under MHRD and AICTE.

### **Vision**

To develop internationally acclaimed educational programmes in Civil Engineering and equip the students to face current and future challenges, with due care of societal responsibilities.

### **Mission**

- To provide an educational, professional and intellectual experience that enable the students to serve industry, profession and society through novel solutions.
- Educating, inspiring and mentoring students to develop creativity and innovative research capabilities.
- To produce outstanding Civil Engineering graduates with highest ethics, leadership qualities and social responsibilities to make them leaders in nation building

## **About The Conference**

The conference aims to provide an opportunity for academicians, technologists, entrepreneurs, the engineering communities and students to put forward their ideas and findings related to recent trends in the area of Civil engineering. It is going to be a wonderful platform for the delegates to exchange their experiences with renowned plenary and featured speakers.

### **Themes**

Construction Engineering & Management  
Geotechnical & Environmental Engineering  
Structural & Sustainable Construction Engineering  
Transportation Engineering & GIS Applications in Civil Engineering  
Water Resources & Offshore Engineering

### **Call for Papers**

COCE'20 invites original, high quality and unpublished technical papers. Prospective authors are requested to submit an extended abstract not exceeding 300 words. The document can be mailed to [cmes@mesce.ac.in](mailto:cmes@mesce.ac.in). The document will be reviewed by the technical committee to assess their quality and relevance to the scope of the conference. A brief account of the most relevant papers shall be included in the conference. Presentation will be online through a popular online platform, which will be informed in due course.
