

Vision, Mission and PEOs of The Department of Electronics and Communication Engineering

VISION

To be a centre of excellence in Electronics and communication Engineering Education and Research, that produces globally competent professionals with social commitment.

MISSION

To impart high quality engineering education in electronics and communication for the students

To provide best facilities, infrastructure and training to students and faculty members and thereby create the ambience for excellence in Engineering education and research

To have adequate mechanisms to enhance understanding of implementation of theoretical concepts in practical situations of industrial relevance.

PROGRAM EDUCATIONAL OBJECTIVES

To prepare graduates to have Knowledge and competency in Electronics & communication Engineering and related areas for careers in Industry and/or academia in global settings

To prepare graduates to pursue higher education in Engineering or other professional fields and thereby practice lifelong learning & research with social commitments

To prepare graduates to design, develop and analyze Electronics & Communication circuits and systems using appropriate theory, tools and processes

To prepare graduates to solve problems by working in team environments and to effectively communicate professional knowledge among their peers, customers, supervisors etc.
